DETAILED ACTION

Claim Objections

Claims 15 and 17 are objected to because of the following informalities: Claims 15 and 17 uses the word "type" appended to an otherwise definite phrase (i.e. glycol butyl ether or acetylene glycol). It is the Examiner's opinion that the word "type" does not further definite the term. The Examiner suggests deleting the word "type".

Appropriate correction is required.

Double Patenting

Claims 1-20 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-26 of copending Application No. 10/504,218. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the present application overlap 10/504,218 claims and would be obvious thereby.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
